

*During 2024 Safari moved to Darwin, Northern Territory in order to find work to support his family. Life is hard in Kenya.*

*Extract from Safari's correspondence 16 December 2024*

Very good to hear from you after some time. Am good here in Darwin still looking to lock in a secondary job for the wet season maybe after Christmas into the new year.

Thank you soo much for the can collection that you have done.

I do miss my wife and family during this Christmas period it will make me feel sad. But its for the best.

Nothing much planned for Christmas I hope I can get a nice leg of ham which is my favourite.

I will go to church on Christmas day a must that's what we do in kenya.

I fine life is better for Mwendé and Leo and Avril because I can support them when am here although I miss them very much.

Hope you have a wonderful Christmas and give my love to friends, family and church community and wish them a merry Christmas and a prosperous New Year full of God's love.

Be well

Safari
